To: Sward1979@aol.com

My name is Donna Carle, and I'm a non smoker. I work in a bar on the South Side of Milwaukee 37th and National. I've been a bartender for 20 years. I'm opposeing the smoking ban. Because I will lose my job. My Boss will close her doors because all the customers are smokers. And it does not bother me, if someone smokes or doesn't that should be up to that person. You are takeing are rights of beening and American away by telling us where we can smoke or not. I thought this was a free country, but I guess it's not anymore. If a nonsmoker doesn't like a bar that smokes then they shouldn't go there thats there choice.

I think are Mayor should have more important things to worry about than nonsmokers crying about smokers.

When is this Country going be a free COUNTRY AGAIN??????????????????

WHEN A PERSON HAS A RIGHT TO SMOKE OR NOT TO SMOKE

I was a smoker and I chose to quit on my own without anyone telling me I had to.

Thank You
Donna Carle (a nonsmoker)

Subject: Anti Smoking Ordinaance

Aldermen,

I believe the anti-smoking proposal will lead to the closure of many bars and restaurants on the west and northwest sides of the city. We have a shortage of establishments to start out with. The vacancies will be filled with day care centers, nail saloons, store front churches etc. The remaining business's will suffer from declining revenue.

The properties will not sustain their property tax levels and will decrease city revenue. You can expect a decrease a liscensing revenue too. Has a fiscal note been prepared?

There is a race and class component to this issue. Downtown and the East Side will be able to survive. The working class neighborhoods of our city will be hit the hardest. I am working with five organizations on the west and northwest side to advance economic development in our area. I believe this proposal will be negatively effect our ability to enhance our neighborhoods.

There exists technology to effectively filter air of smoke, yet the proposal is to ban smoking - not moderate it's effect.

This is my personal opinion and does not represent the opinion of any of the groups I work with.

Robert Krug

Milwaukee, WI 53216

ps A recent issue of Science News included an article about the fact that melatonin helps to regulate the spread of breast cancer. Women that work second and third shift were shown to have a 50% increased risk of breast cancer. Do you intend to ban women from working in the evening?

Please, seriously consider the NEGATIVE economic impact this will have on the businesses in this city if this smoking ban is adopted. The \$100.00 a year license required by bars and restaurants to sell cigarettes will also be loss of income. Will this affect the value of my property if no one wants to buy a bar or restaurant due to poor business.? This is still America, isn't it?

thank you for your time,

I have been a bar owner in this city for 22 years.

Subject: Speak freely friday

Back in 1982 I quit smoking, that was my choice not BIG BROTHERS. In the mid 80's the state changed the opening and closing time of all bar's to stop border jumping, or drinking and driving from one county to another. With the smoking ban people will be border jumping again, leaving Milwaukee to drink and eat in other city's. I know people will be smoking in bar's when I go into one, but that's my choice, not BIG BROTHERS. I think any Alderman who vote's for a no smoking ban should be recalled. What is next, you can only have sex in your home bed room, not in a Motel. The rights of people are at stake, say good-bye to BIG BROTHER. God bless the USA, and freedom for all.

Dear Mayor Tom Barrett,

Please defend everyone's rites to freedom and choice.

Free to patronize the businesses you want, and choose not to spend your money in those you do not.

I beg you to take heed in Madison, in that they are overturning the ban. People will go elsewhere. I am only 1 mile from Greenfield. All of my customers will go there to drink. I will lose my tavern after 22 years in the city. 90 % of my customers are smokers. Will my property hold it's value?

Where is the \$165 thousand that the Black Coalition has, being spent. So far, T. V. news reports and interviews are FREE. Public meetings and rallies are FREE! I attended a public meeting and the people there that were literally "screaming" about smoking in bars, **I have never seen any one of them in my business.**

The Dr. that now has lung cancer and blames it on his friends coming over on the weekend to play cards at his house. WHY DOESN'T HIS WIFE HAVE LUNG CANCER TOO?!

Clean work environment ... People choose where to apply for a job. NO one is placed anywhere they don't want to be. There is more time and effort to apply and attain a bar tending license in the city. The class, police back ground check, and finger prints. Are any of the Alderman printed, tested and schooled in politics? Seems to me they are not.

I deal with 71 businesses because of mine and only one of those companies supply tobacco to my business. ONLY ONE!! The other 70 will feel the effect of my decline. Trickle down is not the word for this.

Health costs are not the fault of the people but rather the insurance companies. There ought to be laws for THESE companies. ! More people die of heart disease. What will be illegal next french fries?! If I don't like someone's perfume, I politely move away. Not scream at them because I sneezed and coughed and they made my eyes water. Chlorine in drinking water also causes lung cancer, along with fluoride. Brush you teeth everyday? So few govern so many. What would you call this form of government?

The only way this will work is if the ENTIRE state goes smoke free. All this will do now is push all of Milwaukee smokers to Greenfield, Franklin, Glendale, etc.....they will benefit. Milwaukee will NOT! I live in Greenfield and I received a letter several years ago about this same thing. My written response to them was that " I will spend my money else where" I am FREE TO DO THAT!!! Milwaukee is making a big mistake. Just remind this Black Coalition that they are FREE to go anywhere they choose. Just like everyone else....for now.

I will probably start looking to relocate my business into Greenfield. I know they will cash my checks too.

Sincerely
 M.J. Kusz

Alderman Witkowiak:

In view of the upcoming Public Safety Committee meeting scheduled for 3/2/06, Rm 301B City Hall, 9:00AM, I am expressing my concerns on the harm this smoking ban and the problems that could be associated with its passage.

First and foremost is the safety of our customers and our City. In many areas of the City, sending our customers outside to smoke their cigarets, would make them targets. We have businesses that have installed metal detectors at their entry doors and do not allow them to enter with weapons. So we send them & weapons out to their cars and then later we send them back out to smoke a cigaret. Seems to me, we can control and stop problems inside our businesses, but now would be expected to police the streets too. How safe is this? Do we now get noticed and declared a "nuisance" because we have "loiterers" outside our businesses? Tobacco is a legal product; our Class B establishments are age restricted -- 21 years & older. Our employees on applying for employment, know that smoking probably happens in our taverns; to be a bartender you must take a 4 hr. course on responsible serving that includes the regulations on selling tobacco products. There are regular checks of our businesses to make sure that we are not selling either alcohol or tobacco to underage or minors.

In addition, how will the City pay for this enforcement. The ordinances calls for the health dept and the police department to be the enforcement agencies. Most health dept employees do not work nights when most of our business are open and I feel our police department needs to be on the streets fighting "real" crime and protecting the life and property of the Citizens of Milwaukee.

With 1300 licenses for cigarets issued by the City, how will this revenue be replaced..... if I can't allow my customers to smoke their cigarets in my business, what makes you think they will buy them here; obviously, I don't need to have this license. The sales tax revenue share that Milwaukee receives will be affected. Who and how will the City make up for this loss? How will the City pay for the additional policing, enforcement, and possible increase in municipal cases in our courts? All of this due to the use of a legal, taxed, product that we still have the freedom of choice to consum?

Please let me know when and if any citations for someone lighting up in my business would make my renewal of my Class B a problem? How can the owner, operator, or manager be held responsible for a "customer" who feels their rights are being violated?

Thank you for your time and I hope these concerns can be reasonably addressed,
Sharon M. Ward, owner Wardski's Inc.
